Gunnin' down the silver trails of idealism

**mpirg**

Minnesota Public Interest Research Group

Twenty-three months ago today in a small college town in southern Minnesota a few idealistic Winona State students carried the words of MPIRG far and wide over the barren terrain of their campus. They shouted, "Behold MPIRG, the guiding light of student activism and involvement, we can effect our destinies."

The road to existence and success was hard and rocky, but they did not give up. It is now 1975, the road is about clear and the golden spike of MPIRG has been driven into the future of Winona State.

MPIRG's got it's pistons a movin', steam a roarin', and is gunning down the silver rails of idealism.

MPIRG will have an impact, the extent of which is up to you the students of Winona State. The more involved the greater it's accomplishments. Students and community alike will benefit from it's success. MPIRG is working and will continue to do so!

AND THAT'S THE WAY IT IS

#### INDEPENDENT STUDY ASSISTANCE PROGRAM

Many students would like to do independent studies but do not know how to set one up or what is required. We would like to help. Students, you can do some fantastic work through this program for credit. We would be willing to give you any assistance you may need. We are in contact with many other environmental and consumer groups across the country. We also have money available to finance any worthwhile projects you may do. If you are interested contact the MPIRG office immediately.

#### MINNESOTANS AGAINST POLLUTION [MAP]

There will be an internship available this spring quarter. You will need some ability in water testing and organizing. If you are interested please contact the MPIRG office.

#### MPIRG MEETING

Thursday February 6th

362 Johnson-United Campus  
Ministry house by the Library  
8:00 p.m.

All interested people are urged to attend!

OFFICE: 111 Phelps

PHONE: 452-8520

HOURS: 12-3

'If they had enacted those silly controls on strip mining, we probably wouldn't have had enough fuel to get out and really see America!'

77 WEST 3rd ST.

HAIRSTYLING FOR MEN AND WOMEN

#### TENANTS UNION

MPIRG is one of the members of this new coalition. For further information read the Tenants Unite article in this paper. We urge everyone to attend. It will work and work for you.

# Winonan Rock 'n' Roll results:

## Elton John and & Joni Mitchell best singers

The Rock 'n' Roll Poll was a great success, which shocked most of us over here! We received a variety of answers, and we say "thank you" to all of you who turned the poll in. PB

**BEST SINGLES:** "Lady" by STYX, led the pack for the best single, with "Mandy", "Bitch is Back", and "Band on the Run" following closely behind.

**WORST SINGLE:** "I Shot the Sheriff" won this honor. "Having my Baby" and "Kung-Fu Fighting" had a sizable amount of votes.

**BEST BAR:** By far, the

votes went to the Levee. Katie Keester, eat your heart out! Honorable mention goes to the Dutchman's Corner and Amby's.

**WORST BAR:** Without any question, this little gem of an award goes to the Mississippi Queen, followed by the Four Queens.

**MALE CHAUVINISM AWARD:** We got a lot of answers for this award. Muhammed Ali, Bobby Riggs, Dr. Bubblitz, Doug Hamper, Jerome Christianson, Wilbur Mills, Spiro Agnew, and Archie Bunker all were named. The vote was spread pretty even among these men. Dr. Beyer also drew many votes for not letting girls

carry telescopes.

**RIP-OFF OF THE YEAR:** This was a four way tie among the Mississippi Queen, the WINONAN, gasoline prices, and the Bookstore. Nixon also scored with his pardon, his appointment of Gerald Ford as vice-president, and his "reign" as "president".

**BEST FEMALE SINGER:** With no competition, Joni Mitchell wins. Half as many votes were for Olivia Newton John.

**BEST MALE SINGER:** By a landslide, Elton John came out on top, with someone with the audacity to mention Jim Dandy of Black Oak Arkansas. Also mentioned

were Jim Croce, Bobby Vinton, Neil Sedaka, and David Bowie.

**BEST DRUG:** LSD led, followed closely by booze and beer. The worst were heroin and THC. "Men" was also given a vote (by Ms. Keester???)

**BEST RADIO STATION:** KQRS won with a three way tie among WYOO, WWLA and WCFL. KQRS and WLS were also mentioned.

**WORST RADIO**

**WORST RADIO STATION:** By another landslide, a tidal wave, earthquake, and an irrevocable will of fate, was KWNO.

## Are you people serious?!?!?

Of all the responses — male and female — the WINONAN received concerning men and women (I-22-75), the following conclusions can be drawn up:

The Equal Rights Amendment is generally accepted by WSC students as necessary and good". Only the women thought, however, that they

should be allowed to participate in contact sports and girls should be allowed to play Little League Baseball. Perhaps this is so because of a general misunderstanding or a lack of knowledge about the ERA. Also, women are more "Lib" just for the sake of being liberated.

Not surprising, men and women do NOT date regularly

— some not at all — although the women thought that it is great for women to ask men out. Maybe they'll start showing their liberalism, men.

The majority of the replies said a party or classroom is the best atmosphere in which to meet a member of the opposite sex for a date, NOT in a bar.

All agreed smoking is bad, but no one is turned off by

drunkenness. What turns them off the most is stupidity.

The girls like the WSC jocks, but everyone answered the question, "How would you rate the WSC men and women on a one to five scale, five being excellent?" as we thought they would. Such replies were, "There isn't a scale that goes low enough", and "They (girls) should grow up", and "They (guys) are't worth it".

Elections for  
1975-76 WINONAN  
Editor and Business Mgr.  
February 18th

Students interested in the editorship and management of the WINONAN should pick up application forms before February 17. Election by the Publications Committee will be held on Tuesday, February 18 at 4 p.m. Applicants must be present.

Application forms are available from Janet Sill in Somse 216. Forms may be returned to her or brought to the meeting on the 18th.

All students are invited to attend the meeting and question the applicants. Anyone is eligible to run for this office provided he or she is a full time student (taking nine credit hours) and has 2.0 GPA.

**Winonan**

The Winonan is written and edited by and for the students of Winona State College and is published weekly except June, July, and August, and exam periods.

Offices located at 101 Phelps Hall. Telephone 457-2158.

Deadline for non-staff copy is 5 p.m. the preceding Thursday.

CLOTHING RUMMAGE SALE  
Has Values To \$7.95  
For ONLY \$5.00

January is almost over, a great blizzard is behind us. But ahead lies six to eight more weeks of sub-freezing temperatures, snow, slush, icy sidewalks and drab gray surroundings. No wonder, that with spring break only about a month away, thoughts already are turning to a trip to Florida, where the realities of schoolwork and the weather are put aside for a week of lounging on the beach.

I know that the students

are getting restless because a number of people have asked if there will be another Florida trip this year. I'm sure most of you remember all of the excitement which was generated with last year's trip and regretted not being able to go. When the group got back, flashing their disgustingly gorgeous tans, their souvenirs, and endless recounting of the good times they had and people they met, you hated whatever kept you from enjoying a Florida vacation even more after they

returned.

This year IRHC and ACACIA have joined together to offer a trip over spring break to Daytona Beach which is aimed at not decimating your wallet. The factors, both good and bad, concerning last year's trip have been analyzed and the changes in this year's trip should add a lot, both in enjoyment and in added savings. Transportation, this year by Greyhound chartered bus, will be \$96. Transportation and hotel accommodations can be provided at the Silver Beach Inn for seven nights and eight days, March 2 through March 8 for only \$140.

Last year, everyone who went made their own hotel reservations, and as a result paid more than they may have needed to. This year we felt that we should provide accommodations at a reasonable cost at an ocean side hotel

close to the many attractions offered along Boardwalk.

Last year a bus trip to Disney World proved so popular that we are offering again this year. Transportation and tickets to all attractions at Disney World will cost \$14. For total enjoyment of your Florida trip, we would also like to provide information and special rates on number of activities. In addition to a trip to Disney World given sufficient interest, we can charter the bus for a day at Bush Gardens, Seaworld and Cape Kennedy. For racing fans, Daytona International Speedway will be holding motorcycle races between March 2 through March 9.

For further information on this year's trip to Daytona Beach, please contact Cheryl Long, Lucas 218, #2243 Ashley Seymour, Richard 108, #2306.

### FOR THE ALTERNATIVE THINKING MIND WITH AN APPETITE

The Winona Area Alternative Conference will be held the 9th of Feb. at the Holzinger Lodge. Following the conference, a pot luck dinner will be held, with music provided by the Killers of the Universe and other community bands.

12:00 noon till 1:00, informal gathering  
1:00 - 2:30, general meeting of events of past projects.  
2:45 - 4:00, discussion of River Bend Cafe, Coop Bakery, and possible future coop food service.  
4:15 - 5:30, discussion of a possible low cost health center, a living and learning center, a coop worker's switch board and a grower's and buyer's collective.

The dinner and festivities will begin between 5:30 and 6:00, and continue through the evening. All are invited to attend.

# What's holding up radio station?

The K.K. of WSC

WSC's radio station is again being upheld, this time because of administrative delays. The project was started last year, due to the efforts of several dedicated individuals and groups. The station was supposed to be on the air this winter, but delays in receiving FCC approval upheld the project.

The main initiators behind the project have done their

homework. Several fund-raising activities were sponsored by the Student Senate this Fall, but not enough was raised to fund the radio station entirely. The Communication and Theatre Arts department hired Bruce Hittner to assist Jacques Reidelberger in coordinating and setting up the station. They obtained the call letters KQAL from the FCC, a license to operate, and ordered \$6000 worth of stereo equipment.

Why then, is the station being hung-up if everything is ready to go? Once again, administrative bureaucracy in the college is the cause, and according to one well informed source, "the order forms are sitting over on someone's desk, waiting for an administrative decision to be made." The equipment can't be bought until money has been approved for the orders.

It would be sad if the radio station never got on the air.

Further delay stalls enthusiasm for the program, and educational opportunities are lost. Meanwhile, WSC's TV station in Phelps is being threatened from a cut off of funds. Once again, administration inaction is screwing students over. I urge that the funds for the radio station be approved quickly, so necessary equipment can be ordered and the station can get started.

—Dave Galchutt

Katie Keester, we feel sorry for you. Why do you go downtown in the first place? Admit it—you only wrote that article because you and most of the girls at WSC are mad for not finding the jackpot at the end of the rainbow after each weekend night. But we'll admit that your article provided us with a lot of good laughs (at least we got something out of this school).

Seriously, though, it's getting to the point now where the girls are hustling the guys, but if you would all act normal for a change, we might get the nerve to ask you out. Until then...Morey doesn't need girls, but the girls need Morey!

Sincerely and all yours,

G.M. T.B.  
D.S. P.I.  
J.G. M.G.  
T.S. J.W.

and all the rest of us at Morey

## Dear Cheryl of IRHC:

Dear Cheryl Long,

I see how one girl can become a woman by

1) buying a snow shovel... A cheap snow shovel costs \$3.79 at Coast to Coast... or—if you'd rather use a teflon-coated one, they cost \$7.60 at RD Cone; at the same store they also sell silicone-treated ones for \$5.80! They also have cheap ones for \$3.50 or \$4.10. These 2 stores are the only ones that sell snow shovels downtown.... and that's close to campus.

2) getting up a lil' bit earlier than usual only on days after the snow has fallen,

3) and trucking to the Fire Exit of your choice... AND IN 10 MINUTES—there would be ABSOLUTELY NO SNOW on that one exit.

And wouldn't it be neat, since you represent IRHC, to make that one of YOUR

personal "positive actions" to MAKE SURE 'your' chosen Fire Exit was safe to use.

What would the Administration think if we no longer complained, but took it upon ourselves to DO that positive action of shoveling that fire exit or putting a needed light bulb in your smoker—

buy a few light bulbs and give the bill to the Maintenance Bunch and tell them you did the job because they were too busy and that you'd like the money you spent buying needed light bulbs.

WE ARE MATURE STUDENTS, AND WE CAN DO THINGS, TOO. I BELIEVE OUR STUDENTS HAVE MORE SELF-RESPECT THAN COMPLAINING ABOUT THINGS THAT WE CAN BE A MAN OR WOMAN ABOUT AND DO IT!!!!!!

Jane Schoewe

## The Joke's on You

When the WINONAN printed Katie Keester's article last January 22, we never thought it would cause such a defensive attitude on this campus. Strange as it may seem, after the article appeared, the lines not only increased, but got better and more original, at the Levee.

In defense of Katie Keester (and I'll probably get my face smashed into a cement wall for defending her), her article was written as a humorous satire on one aspect of WSC life. It was NOT meant to be taken literally and analyzed line by line. But then, that is a problem that's caused when a person is writing satirically. No one really knows if the person is serious or not.

Was Katie Keester joking? Yes and no, and as it turns out, the joke is on YOU. It takes an article such as hers to publicly cause any excitement on campus or interest in the WINONAN. The paper surely has printed articles that have deserved more voiced attention than this one.

M.A.

Morey  
Shepherd

## A re-arrangement of priorities is necessary

Don Kohler

Having trouble getting your "shit" together? It was the same here, but not so anymore. I've discovered the solution. I've contemplated the answers to my problems over a sink full of dirty dishes and anyone can do the same. All that's needed is to have every dish in the house dirtied and put in the sink. Then just lock the drain, fill the sink with water, throw some soap in and take a break.

One should be in the correct physical state for doing dishes, so use this break to check to see that the correct preparations have been made. I suggest bare feet, no shirt, not enough sleep, an empty stomach, unshowered skin, and, of course, unbrushed teeth, for getting one's self into the proper physical state. (Having prepared the body, the mind will usually take care of itself and therefore there's little need to worry about it.)

Also atmosphere, though not necessary, is recommended. A loud record, radio, or tele-vision will suffice for the effect desired, but a comparable substitute, which will lend approximately the same effect, though of an olfactory nature, can be obtained by standing in a water filled bath tub and picking the hair from the drain whilst turning on the light or putting a finger into an outlet. The smell of the burnt hair will give the air an odor that can only be appreciated while one is doing the dishes. Having made these correct preparations, dish-washing can prove to be an enriching experience.

For example, do as I do while washing dishes. Contemplate. For when is there a better time? Isn't it that only when doing mediocre tasks a person's mind is able to function at it's highest level? Isn't it so that when a man's hands are occupied, and his mind not, that he is able to reason with more accuracy than if his hands were unoccupied? Consider, for example, how the average everyday philosopher, with hands submerged in soapy dish water can contemplate the answers to such questions as, who dirtied all the dishes? Why doesn't anyone else ever do the dishes? Or such theological questions as, why would God save someone from being electrocuted while pulling his roommate's hair out of the plugged up drain only to leave him a sink full of dirty dishes, of which he only dirtied three forks, three plates, and one pan that he washed out when he was done. And that was then

dirtied by someone else who never does the dishes. Or how come God would get this person out early in the morning with a stereo turned on full blast by this person's roommate and with the floor ice cold, and the water so goddamn hot that it burns this person's hands, with no food in the refrigerator, crumbs on the floor sticking to this person's feet, and no shoes or socks on?

Indeed, in what else but dish washing can one see the irony of ketchup on a plate and thousands starving in Asia; or the humorless ecological paradox of phosphate in the sink cleaning dishes and unclean rivers; or the ridiculousness of racial segregation when everything that's dirty is washed in the same sink; or the silliness of the equal rights amendment amended to include women when it's evident that greasy pans, though often times lower in order, are given equal time, if not more, in the sink of life. All I can say is that it's a crime that dish washing isn't offered for credit.

Why don't you want to pollinate?

"I have a stemache"

## Course descriptions available to WSC students

Bill Marx

THE OUTLINE was developed by the Student Senate this past quarter to give general course descriptions on the 100 and 200 level that are offered spring quarter by participating instructors.

Course content and objectives, grading policies and materials required for each course are some of the items that will be included in THE OUTLINE.

Instructors are not required to participate, as some do not want to draw up strict guidelines for their classes. Other instructors have commended the Student Senate for developing THE OUTLINE, as they feel it is a good way to inform students about the content of their courses.

OUTLINES will be available for advisement next week in the Student Senate Office in the Smog, in the individual department offices, at the reserve desk of the library, and from the residence hall advisors.

## WSC Concert Band moves out... and back again

The Winona State College Concert Band departed for its annual 1975 Concert Tour on Monday, February 3. The band will return on February 7 and play its homecoming concert at 8 P.M. in the Performing Arts Center Main Theatre on Sunday, February 9. Soloists for this year's tour included Mary Lyons, a senior music major from Kasson, MN, and solo chair French hornist with the band, Nancy Ruehmann, euphonium, a junior music major from Mabel, MN, and Robert Ouren, a senior music major and solo cornetist from Winona. This year the band will play concerts at Cochrane-Fountain City High School at Fountain City, Gale-Ettrick High School at Galesville, Rochester Community College, Dover-Eyota High School at Eyota, Simley High School at Inver Grove Heights, Park High School at Cottage Grove, Ashlan High School at Ashland, WI, and Kenyon High School at Kenyon, MN. In addition to the featured soloists, Sunday night's concert will include the Festive Overture by Shostakovich, Music for Winds and Percussion, and an exciting new work entitled Sketches On a Tudor Psalm by Fischer Tull. The concert is open to the public at no admission charge.

## Co-op Bus. Ad and Eco. Program begins at WSC

The first of an anticipated growing number of students in Winona State College's co-operative program in Business Administration and Economics will begin the on-the-job phase of his work in early March 1975.

Patrick H. Kohler, a junior from White Bear Lake, Minnesota, who is majoring in accounting, has been hired as a bank-examiner trainee by the regional office of the Comptroller of the Currency, U.S. Treasury Department. (National banks are supervised by the Comptroller's Office through 14 regional administrators and some 1,900 examiners.)

Starting on March 3, Mr. Kohler will attend a week-long introductory session in Minneapolis, after which he will be based in Rochester. In the field as part of a team examining national banks in the area, he will alternate six-month periods of job experience with similar periods of course work in the Department of Business Administration and Economics at

Winona State. The program's completion is to take about two to three years in his case.

The Department's co-operative study is related to two other on-going opportunities for students to engage in tailor-made work. Independent readings or research is available separately, or along with other course work in any quarter. A varying number of credits is possible, depending on the student's needs. More involved in the internship, which usually entails a single, three-month period of practical employment experience near the start of the senior year. The co-operative program provides still more integration of job and college work, with repeated and extended periods of each, alternating with one another.

Further information on any of these programs can be had by contacting the Department's office in 325 Somsen Hall, Winona State College, Winona MN 55987. Dr. Mary Rieder is Department Chairperson. The phone number is Area Code 507, 457-2036.

## Mind over matter- is it possible?

Dave (Tanker) Galchutt

"I believe in mind over matter, and the power of the subconscious to alter existence, whether you refer to it as God, energy, or nature"—that's a conclusion from an interview with Dr. Brice Wilkinson, head of the Communication and Theatre Arts Department.

(Dr. Wilkinson received a B.A. and a M.A. degree in speech from the University of Colorado and a Ph.D from the University of Oregon. His speciality is communication theory, and he has done extensive research in the field of communications, psychic phenomena, and extra-sensory perception. In addition, he also teaches judo and mind development courses.)

**QUESTION:** I've heard a lot about your mind unlimited course. What is it?

**ANSWER:** "Mind unlimited is the best course I have ever taught or taken. It involves lecture, relaxation,

programmed learning, discussion of experiences, and extra-sensory perception."

**Q:** How has it helped you?

**A:** "In many ways — I have always been a positive thinker but now I have even a more positive attitude. For many years, I socially overindulged in alcoholic beverages, but I have had tremendous success in controlling my drinking... My classes are more creative, I did a color TV course, and published my first article on teaching a speech fundamentals course. In my family life, I've discovered my own inadequacies and the inadequacies of others."

**Q:** When did you first take up judo?

**A:** "I started playing judo in Japan in 1954. I used to compete up until 1967. I still teach..."

**Q:** What degree do you presently hold?

**A:** "I have a second degree black belt."

**Q:** How does judo help you

gain control over your mind?

**A:** "We seek to promote physical and spiritual development. Judo is the gentle art of self-defense — physical contact under controlled violence. I reject the martial arts on TV. It's disgraceful when a 220 pound man knocks out a 125 pound woman."

Judo also involves meditation. I practiced meditation before I knew it was called meditation. Judo is total concentration...All people from 6 to 66 can participate. I've taught students, children, grandmothers, middle aged people..."

**Q:** Do you have to take meditation classes to learn how to meditate properly?

**A:** "No — there are hundreds of ways to meditate. In my opinion, transcendental meditation produces some good results, but it uses some shady promotional techniques."

**Q:** What are the techniques involved in meditation?

**A:** "There's a book by

Sebastian Temple with information on montras and other meditation techniques on sale at St. Mary's Bookstore. Or stop by in my office in Performing Arts 204 and I'll teach any student..."

**Q:** I've heard you are also into psychic phenomena. What could you tell us about this field as it relates to communications?

**A:** "Communication is the transference of sensory images. The mind may send and receive messages at the speed of light at a subconscious level — we may be communicating with energy sources, a universal mind, or with other planets, although we're not currently able to comprehend it. That sounds pretty far out, but people talk about guardian angels..."

Mind control is supposed to free an individual from tension and anxiety, habits and hang-ups, and allows an individual to program his life. It may be a different name for getting your head together, but according to Dr. Wilkinson, it works.

## Visitors decide if nursing program to retain its accreditation

Elaine Walske

The campus of W.S.C. had three very distinguished guests the week of January 27. The three were members of the Board of National League of Nursing, and the purpose of their visit was to look over the nursing program to determine whether it should retain its accreditation. The board makes a routine visit every six years. Members of the visiting committee were: Dr. Frieda Shirk (senior team member), Dean and Professor of Nursing, Capitol University, Columbus, Ohio; Dr. Elizabeth Krueger, Professor of Nursing, University of Wisconsin—Milwaukee; Dr. John Morris, Vice-Chancellor for Academic Affairs, University of Wisconsin—Eau Claire.

Dr. Shirk noted that they were here only to verify the report which the faculty of the nursing department of W.S.C. submitted to the board. She also said that the final decision determining accreditation is up to the Board of Review of the N.L.N., and that she, together with Dr. Krueger and Dr. Morris, looked for facts and interpretations that would help the board to understand the report. During the week, the three guests looked over N.L.N. scores, budgets, salaries of teachers, faculty minutes and student representation, in an attempt to better understand the workings of the program.

Friday, January 31, the faculty of the

Dr. Frieda Shirk and Dr. Grace Deloughery

nursing department and two of the three guests met to discuss their findings. In March of this year, the board will send their official report concerning accreditation, based on the findings of this week.

Dr. Shirk commented on the impressions she received at W.S.C. "The students are a delightful bunch of people. They are very serious about what they are doing, and we would really like to have them in our classes." She also commented on the friendliness of everyone she met on the campus.

**I.M. POCKET BILLIARDS TOURNEY IS  
FEB. 5

## Tenants with housing problems unite

Winona State College students have faced many difficult problems with housing in Winona. The complaints to the Renters Union, Student's Affairs Office, and other various offices dealing with off-campus housing outnumber last year's complaints at this time of year.

What can I do? Alone you can do nothing, but a group of students can. Can you imagine ten students, or 100, marching up to a landlord and demanding together their rights. We can help each other with our mutual problems. In the

masses there is power!

February 10th at 7:30 p.m. in the Student Union a new coalition Tenants Union will be formed. All students with problems in off-campus housing are urged to come to this organizational meeting and voice their complaints. The purpose of the Winona Tenants Union will be to provide an avenue for complaints and provide solutions to these problems. It will also compile and have available to all students a list of housing facilities in Winona.

LIVING DOWN IN THE DUMPS

If you are not satisfied rights and obligations as a tenant, get involved; you don't have to tolerate it any more. Complaints will be taken at Membership in the Tenant's this organizational meeting. Union will help you become We need you to voice your aware of the law, and your complaints to be effective.

## Social life important to Vets Club

Dave (Tanker) Galchutt

For returning veterans, WSC's Vets Club provides an opportunity to meet people on campus and to get involved. "For someone getting out," says Charles Stark, President of the Vets Club, "it may take a major re-orientation back to school." The veteran is like the college freshman, not knowing anybody, but is several years older. According to Stark, "the club allows people of similar background to get together and meet a whole mess of friends."

The basic purpose behind the club is social. "The dues are \$2 a quarter and the only expense are parties. We hold our meetings every other Monday night at the upstairs of the Levee." The group also holds several exchanges with sororities and plans to throw a dance at the American Legion.

This year, the Vets Club instituted a scholarship for one of its members. Scholastic achievement is also empha-

sized. "For most veterans, school comes first," says Stark.

The club is also a member of the National Association of Concerned Veterans and attended their convention. "It's basically a lobby group before Congress. We've also worked with the Vietnam Veterans Against the War," says Stark.

Membership is open to all veterans and honorary membership is available if approved by the members. The other officers besides Stark are Doug Riles, Vice-President; Dan Smith, Secretary; and Roger Madland, Social Chairperson. The club presently has 25 active members and is not supported by the college.

Information on the club may be obtained from Stark or any Vets Club member, or by checking the club board across from the Student Lounge in Somsen.

## U of M study-travel tours now open to general public

Summer study-travel tours sponsored by the International Study and Travel Center (ISTC) at the University of Minnesota are now open to the general public for the first time.

Previously, such tours were restricted to University students, faculty and staff members.

Programs available include two tours to the Soviet Union, one to Soviet Asia and the other to the Black Sea area. A special tour for people interested in photography will visit

Germany, Switzerland and Italy.

The first Soviet tour will run from June 26 to July 12, after visits to Leningrad, Moscow, Tashkent, Kiev and other cities. The second tour will run from July 25 to Aug. 13. Cities to be visited include Leningrad, Moscow, Kiev, Odessa and Yalta.

The cost of the tours will cover all arrangements including food, lodging and transportation within the Soviet Union. They are open to persons between the ages of 16 and 35 and are limited to 30 participants.

The photography tour is open to 10 persons and will feature both individual and group projects. During April and May, tour members will receive instruction in the fundamentals of photography and general orientation to travel and photography in a foreign culture.

The cross-cultural workshop in the Cayman Islands will be held from March 22 through 29 and participants can earn three University credits for the workshop. Cost of the program is \$375.

The educational exposure

tour to Southeast Asia will feature visits to Malaysia, Singapore and Indonesia. Participants will determine the specific itinerary of the trip.

Limited to 12, the tour is open to the general public but emphasizes academic learning while traveling. The tour will begin in mid-July and last for approximately six weeks.

For more information, contact the International Study and Travel Center, 231 Coffman Union, University of Minnesota, Minneapolis, Minn. 55455, or call 373-0180.

TACKLE BY DEMAND!

## Don't miss Michael Johnson!

"Michael has some of the swiftest guitar-plucking-strumming fingers in the Midwest, and little of his energy is lost in translation to the plastic platter. But he is not a rapid-fire folkie. His moods are gentle without being crushingly sentimental." **CHICAGO TRIBUNE**

"Each of Johnson's interpretations of fine contemporary material is a beautifully executed and self-contained gem with his extraordinary guitar technique adding a special presence. **ROCKY MOUNTAIN NEWS (Denver)**

"Johnson...compares with Leo Kottke but out-strips him in almost every way. Kottke is an accomplished musician.

Johnson can entertain." **CHICAGO TODAY**

These are just parts of some of the excellent reviews Michael Johnson has received after some of his concerts. Known for his exceptional guitar playing and his rich voice, Johnson plays folk, funk, classicals, jazz, and blues, many from his **THERE IS A BREEZE** album. His appearance at Winona State will be tomorrow night, Feb. 6 in Somsen Auditorium at 8:00 p.m. WSC students will be admitted free by showing their I.D. at the door and the general public will be admitted for \$2.00. Tickets are on sale at St. Mary's, Ted Maier Drug, Primo, and the union desk here, and will also be sold at the door.

# Spring quarter Advising and Registration Info

1975

Spring Quarter registration will take place Monday evening, March 10, and all day March 11. In order to pull their cards, students must have a Winona State College I.D., a Registration Clearance card, and a Header card.

The Registration Clearance card and the Header card will be available in the Office of the Registrar, Somsen 228, during regular office hours between February 5 and March 11.

To obtain these cards you must present your WSC I.D. card. If you do not have a Polaroid color photo I.D. card, report to the IRC (Instructional Resource Center-Phelps), to obtain one before reporting to the Registration area.

Students are required to pick up their Clearance card, Header card, and packet in the Office of Registrar, S228. Your Directory card, Program Sheet, and Directions will be distributed by your advisor.

Students who were not enrolled at WSC during Winter Quarter 1975, must notify the Office of the Registrar of their intent to return for Spring Quarter 1975, by March 3, 1975. Persons who have never attended WSC must have applications completed by March 3.

At the top of your Registration Clearance card, check the total number of credits completed by the end of Fall Quarter 1974 in columns 52-54, the curriculum and major(s) and minor coded in column 57-65, and resident status in column 71. If incorrect information is printed on your Registration Clearance card, you must notify the Office of Registrar prior to 4 p.m., Feb. 28, to make corrections before registration. Any holds you may have will be indicated by a mark in the proper category on the Registration Clearance card. The student who has "holds" remaining on his card at the time of registration will not be allowed to register.

Program advising will begin Wednesday, Feb. 5, through Wednesday, Feb. 19. You will meet with an advisor in the department as indicated on the Registration Clearance card. If your card indicates that you are listed under the wrong major, make out a change of major form in the Office of Registrar. You may then pick up your materials from the indicated major department and take them to the correct department to be programmed.

During the advising period from Feb. 5 to Feb. 19, the Office of Registrar will, upon request, provide you with a copy of your evaluation sheet which lists all the courses you have completed through Second Summer Session 1974. The evaluation will be provided free of charge during the advisement period; after Feb. 19, a fee of \$1 will be charged.

It is important that you make an appointment with your advisor early so that you will be assured of getting in to see him and plan a Spring Quarter schedule. If you are undecided as to what your major is going to be, follow the schedule listed below.

INITIALS	ADVISOR	ROOM	BLDG.
Abrah-Bette	Mrs. Schlawin	204C	Watkins
Biltg-Cleme	Dr. Foss	312G	Pasteur
Cluni-Drews	Mr. Tobin	205	Watkins
Drisc-Fryer	Dr. Johnson	114H	Pasteur
Fuchs-Hanse	Mr. Steigerwald	125	Somsen
Hanso-Hocki	Dr. Marston	134	Memorial
Hoeck-Karli	Dr. Sheehan	118A	Somsen
Karst-Lanea	Dr. Fremling	215F	Pasteur
Langa-Mcvey	Dr. El-Afandi	114D	Pasteur
Meine-Olson	Dr. Gernander	313B	Somsen
Onora-Ringe	Mr. Geiske	310	Somsen
Riska-Schoh	Dr. Sobiesk	218	Minne
Schul-Sucho	Mr. Reidelberger	232	PAC
Sulli-Vanco	Dr. Morello	208	Minne
Vande-Weibe	Dr. Warner	220	Somsen
Weiss-Wicks	Dr. Willson	220	Somsen
Wiebk-Zzzzz	Dr. Matson	220	Somsen

## Senate news

There is now a position open on the Senate for a freshman senator. Anyone wishing to apply should stop in at the Senate office in the Smog.

Due to the problems of the Ethiopian students, the Senate and IRHC have set up a committee to try and find a way to help them. Any ideas are welcome.

The Winona City Council is being requested by the Senate to review its 20 hour parking ordinance. No car can be parked in the same place for more than 20 hours, or the owner will be fined or the car towed away. This seems to be a rather absurd ordinance in light of the energy crisis, the parking problems at WSC, and the problems of starting cars in the cold winter weather.

## Areas open for experience

Want practical experience in your major field or interest?  
Interested in helping yourself by helping others?  
Interested in doing volunteer work in any of these areas:

Public nursing  
Physically disabled  
Pre-school children  
Big Brother  
Tutoring  
Elderly  
Day Care  
Nutrition

Social welfare  
Mental retardates  
Physical therapy  
Big Sister

If you are interested in volunteer work, then you are invited to a discussion with Mike Rishavy of Winona Volunteer Services, February 11, Thursday, 12 noon - 1 a.m., dining rooms C and D. Stop in and bring your lunch. Remember February 11, 12 noon

## Meeting to be held for SLD minors

Date and Place: Tuesday, Feb. 11 at 4:00 p.m. Room 155 Gildemiester Hall

An **IMPORTANT** meeting of SLD minors or persons anticipating an SLD minor will be held to discuss changes in program scheduling. This meeting is a **MUST** for SLD minors. Please familiarize your fellow students with the time and place of the meeting.

## Phi Alpha Theta holds initiation

Phi Alpha Theta, the national honorary history fraternity, will hold it's annual initiation for new members on Thursday, February 20, at 7:00 P.M. in the Winona Room of the Student Union. Anyone wishing to join should contact Dr. Sobiesk at room 218 Minne in the near future. You do not need to be a history major or minor to join. Requirements are at least 12 credits in history courses and a minimum G.P.A. of 3.0 in all history courses. Election of officers and a brief social hour will follow the initiation.

## Biology Club holds car wash

Attention car owner, car renters or anyone with access to a car:

The Winona State Biology Club is sponsoring an all-day, deluxe car wash to be held Saturday, February 8, at Steve's Standard Station on Huff and Sarnia. Cost is \$1.00 for wash and shine.

## Internships in sociology

Applications are now being accepted for students should see Jim Reynolds, Minne Spring Quarter Internships. Eligible 231, immediately.

## Sports: Coming Events

Saturday the 8th  
Men's Basketball at St. Cloud State  
Women's Basketball here against Dr. Martin Luther College at 2:00  
Swimming Meet here with Eau Claire and St. Cloud State at 2:00  
Tuesday the 11th  
Wrestling meet here against Luther College at 7:30  
Wednesday the 12th  
Basketball at Michigan Tech.  
Women's Gymnastics meet at Mankato State  
Thursday the 13th  
Wrestling Meet at Southwest State in Marshall  
Women's Basketball with Mankato State at 7:30  
Saturday the 15th  
Basketball here with Moorhead at 7:30  
Women's Basketball with U of W. - River Falls, there

## Need money?

# Cagers keep on truckin'

By Chuck Kjos

In lone game action last week, the Winona State basketball team won a big game on the road at UM-Morris by the score of 77-60 and now have a two game lead in the NIC title race, half way through conference action.

Paul Sir once again was the offensive star racking a game high of 25 points, keeping up his fantastic percentage shooting by hitting 75% from the field. He was followed in scoring by Gus Johnson who had 18 and Jerry Williams with 12.

The Warriors continue to play well disciplined basketball which seems to be the difference from the first part of the year. At this point the Warriors seem to be the team with the best chance to take it all mainly because four of their last six games are to be played at home.

**Cager Notes:** The win over Morris was Coach Les Wothkes 90th win at Winona.

Jeff Crouse, senior guard will be lost for the rest of the season due to a re-injury to his knee which will require surgery this week in Winona.

Gus Johnson played in his 96th straight game and is zeroing in on the most games played record. He also now owns the record for most field goals in a career with 636 breaking the old record set by Roscoe Young.

## How football has changed

By Paul W. Bryant

[The legendary "Bear" Bryant is the President of the American Football Coaches Association and is the football coach at the University of Alabama. He was elected to the Arkansas Hall of Fame in 1965 and received the Silver Anniversary Award by Sports Illustrated magazine in 1960. Mr. Bryant has been the coach of numerous Sugar Bowl, Orange Bowl, and Cotton Bowl games over the years.]

It was over forty years ago that I got my first introduction to football and since that time I've seen a great game change in many ways, while at the same time many of the same basic principles that won then still win.

It is still a game where the team that blocks and tackles the best, wins, where the team that makes the fewest mistakes comes out on top, and the team with the best athletes will win more often than others.

Equipment has changed probably most of all. Today we have the finest uniforms and protective pads that research and modern machinery can produce. When I

first started playing at Fordyce high school in Arkansas, I didn't have a pair of football shoes. I played in my only pair of "church" shoes, and nearly got the whipping of my life from my Dad for using them, too.

Stadiums have changed drastically, also. Today most of the major football institutions have stadiums seating 50,000 and up. Many have artificial surfaces.

I can remember playing on rocks and gravel, with just some wooden bleachers on the sidelines to seat at the most a couple of hundred fans.

I remember one of the greatest thrills I ever had was going to the Rose Bowl to play Stanford after the 1934 season at Alabama. We went by train and I think the trip took four days and three nights. We stopped along the way in order to practice.

The game itself also has seen a lot of change. When I played, you took the best 11 on the squad and they played both ways. You didn't come out of a game unless you were injured to the point that you couldn't continue to play. And once you came out, you didn't go back in. Now we have so

much specialization that a coach almost needs a computer on the sidelines to keep his substitutions going according to the game plan.

And while it is true that there are a number of different offensive formations and a lot of various defenses used in football, you still have to block and tackle to win. Many of the so-called "new" things in football today are just different wrinkles on formations used for years and years.

The student-athlete today is a lot different from those back 30-40 years ago.

He is a smarter person, more in tune with everything going on in the world, and football is just one of the many things that interests him in his pursuit of an education.

Football is a better game today than it ever has been, in my opinion. It is a faster game, more thrilling for the spectators, and certainly better technically.

If I had to do all over again, I couldn't think of a thing I'd change...well, maybe a few scores, but I'll never be able to give to football all the things it has given to me.

## ...and so do the women

### Women's Gymnastics

by Serle

The Women's Gymnastics team was defeated by the University of Mn. team last week, the final score being; W.S.C. — 73.55, U of M — 78.95. Jan Shepard took first place in the Balance beam and Mankato 62.45. competition.

Last Saturday was the Women's Gymnastics Parent's Day, and a victory for the girls. The final score of the meet was W.S.C. 71.35

**Vaulting**  
1. Timmy Jones MSC 8.3  
2. Deb Harkness WSC  
3. Jan Shepard WSC

**Floor Exercise**  
1. Jan Shepard WSC 7.15  
2. Cheryl Vickers WSC  
3. Ann Robinson WSC

### Women's Basketball

Last week the Women's Basketball team played Eau Claire, but lost by the score of 62 to 42. Winona State's high scorers were Karen Feye with fourteen points and Betty Dittfach with nine.

On the 25th of January the Women's team played St. Cloud State. The B-squad was defeated. Their score was St. Cloud 35 and Winona 27. Winona's high scorer was Cary Torgerson with fourteen points. The Varsity Squad won by a score of 52 — 45. The high scores of this game were Beyce Carlson, twelve points and Betty Dittfach with ten.

Last Saturday the Women's Basketball team had a game with the University of Minnesota — Duluth. Once again the B-Squad was defeated; 51—32, their high scorer for this game was Donna Blaha, scoring fourteen points. The Varsity Squad was once again victorious, and defeated the U of M Duluth 52 to 40. This victory leaves the Women's record at 6 — 2. The high scorer in this game was Karen Feye with fourteen points.

### Parents Day

This Saturday, the 8th of February, is the Women's Basketball Team's Parent's Day Game. The game begins at 2:00 p.m. with the team from Dr. Martin Luther College. So if you want to see some fast action, be there at 2:00.
